

PONTES TUNISIE

12 YEARS OF COMMITMENT: OUR ACTIONS AND THEIR CHALLENGES

Activity report 2012-2024

DEVELOPMENT, EDUCATION AND CREATIVITY

PONTES Tunisia is an association established in Tunis, governed by decree-law 2011-88 of September 24, 2011, and officially constituted on October 11, 2011. Independent, it is not affiliated with any political or religious structure.

Our association actively collaborates with its associative and institutional partners in Tunisia, as well as with our diaspora in Europe, to strengthen the power of action of young Tunisians and keep them away from the spiral of despair and passivity.

OUR ASSOCIATIVE NETWORK

SEVERAL TERRITORIES, ONE MISSION

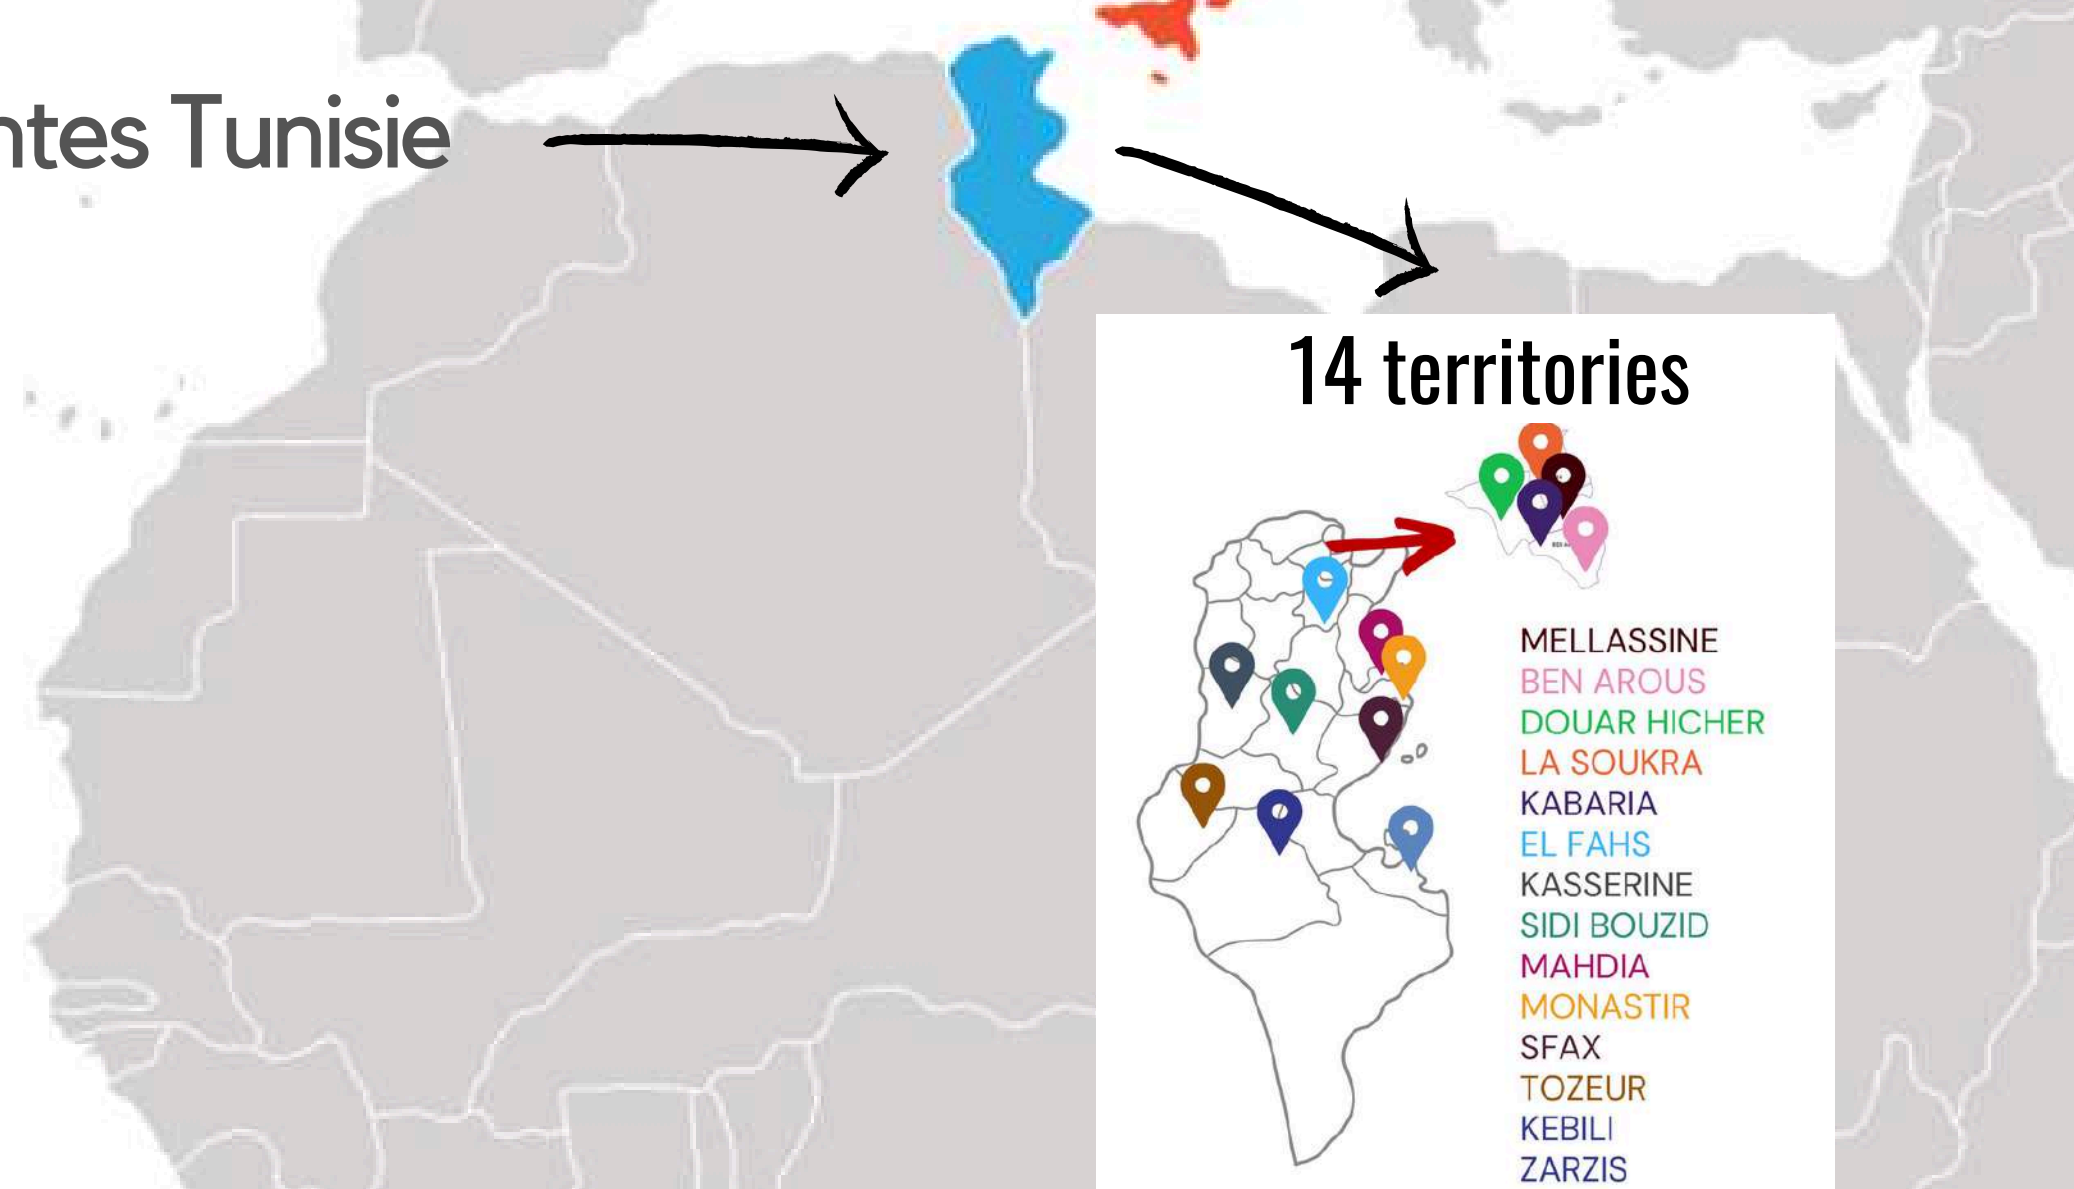

Cooperation for social,
economic, cultural and public
health development

TOGETHER FOR A FAIR TUNISIA:

KNOW-HOW AND STRENGTHENING OF
INSTITUTIONAL AND ASSOCIATIVE PRACTICES IN
THE SERVICE OF DEVELOPMENT

OUR VISION

Contribute to building a more equitable and dynamic Tunisian society, where the necessary transformations within institutional and associative practices, particularly in the socio-economic development of young people, female entrepreneurship and public health governance, are carried by a participatory approach that respects the specificities of our local realities.

We aspire to generate a lasting impact by capitalizing on established know-how and partnerships, while integrating lessons learned to strengthen the effectiveness of our future actions.

OUR MISSION

We are committed to combating the causes of marginalization and violence by promoting benevolent and inclusive actions, which extend from the family to institutions. Thus, our mission is to contribute to building a Tunisian reality where equal opportunities are guaranteed, especially for young people and women, and where an environment conducive to employment and well-being is created.

By collaborating with various associative and institutional actors, as well as by mobilizing the Tunisian diaspora in Italy, we carry out an assessment of the beneficiaries' needs and develop suitable tools to strengthen the capacities of educators and trainers. We also ensure effective monitoring of the support offered.

WE DEVELOP REPLICABLE APPROACHES TO PROMOTE SOCIO-ECONOMIC INTEGRATION, BY EMPHASIZING SELF-KNOWLEDGE, CREATIVITY, CULTURE, AND BY ADAPTING OUR TOOLS TO THE LOCAL CONTEXT OF THE REGIONS OF ACTION.

Equal opportunities

Commitment to ensuring equitable access to opportunities for all, especially youth and women.

Kindness

Promote a respectful and supportive approach in all actions, fostering an environment of trust and support.

Collaboration

Work in partnership with associative and institutional actors to co-design effective solutions adapted to needs.

Creativity

Encourage innovation and personal expression as means of development and socio-economic integration.

Adaptability

Listening to local specificities to develop tools and approaches that respond to the realities of the Tunisian context.

OUR VALUES

FROM LEARNING TO ACTION

Our approach is based on experience and assessment to maximize the impact of our projects

Since 2012, our approach in the design and implementation of our projects is based on a rigorous capitalization of the experience acquired. We develop a lessons learned document that allows us to analyze new emerging needs, to identify the levers of change that we have activated and those potential for future projects.

We also pay particular attention to the obstacles and difficulties encountered, in order to better understand the room for maneuver and the limits of future actions, which allows us to formulate action hypotheses that are more anchored in reality and likely to have an impact corresponding to that expected when designing the projects.

STRATEGIC ACTION AREAS

01

Work towards social and educational inclusion

Prevention of marginalization and protection of children and young people in order to offer positive alternatives to young people at risk of exclusion and irregular migration

02

Support for entrepreneurship

Empowerment and skills development and support for investment of Tunisians living abroad

03

Strengthening health systems

Development and governance of social and health services and community support for families for prevention
